# Why It Pays to Use This Ammonia

To use Bower Brand Anhydrous Ammonia is to safeguard your plant against impure ammonia, and the expense and trouble it causes.

For impure ammonia generates *trouble-making* gases. And no pure ammonia gases can penetrate the pipe space occupied by these foreign gases. Thus no cold can be produced.

The result is high working pressure and a costly reduction in profits.

## BOWER BRAND Anhydrous Ammonia

represents the *utmost* in ammonia purity. No other ammonia is so perfectly pure. Because no other maker can use our *exclusive purifying process*.

In our process of manufacture we remove every vestige of organic impurity of ammonia. Our guarantee for strictly purity and dryness accompanies every cylinder of B. B. Ammonia.

### Send For Our Free Book

Our new book is a *gold mine* of information to everyone who is interested in refrigerating and ice-making plants. Send for it to-day.

For your convenience we have placed stocks of B. B. Anhydrous in all the largest cities. You will find the names of our agents in the current number of "The Brewers' Journal." Please send your order to the agency nearest you. You will be promptly supplied.
