G. V. Electric Trucks

FOR

Brewery Service

Over \$6,000,000 worth ordered by brewers in the United States alone.

About 90 per cent. of all electric trucks in brewery service are ours.

Simple, sturdy and dependable. No expert drivers needed. Made by the oldest and most experienced makers. Fifteen years in use and growing in favor every day.

126 Brewers have already bought over 900 G. V. Trucks. Many operate from 10 to 50 each. Three have 342.

Why not investigate?

Made in six standardized models: 1,000, 2,000, 4,000, 7,000 and 10,000 lbs. capacity.

"We sell the fleets." Send for Catalog No. 79.

MAKESHIFTS

NO beer drinker is going to be satisfied with sweet, soft drinks, nor with "near beers" made by chemical compounds. The same holds good with checked fermentation. The chemical action which takes place in the consumer's stomach makes one bottle his limit.

We take your regular beer, remove the alcohol, leaving it still a good glass of beer, marketable anywhere, and under any law. To do this, we make no change in your present plant, add no new machinery, and utilize the equipment you now have.

We own and operate under the patents of Alexander L. Straus, under whose direct supervision our process is installed in your plant. With over thirty years as a practical brewer, and brewery owner, Mr. Straus' experience in the making of non-alcoholic beers is greater than that of any other man in the trade.

You do not pay us a lump sum before you start. You pay us a modest royalty as you go along. The cost of processing is offset by the excess beer produced.

The business in non-alcoholic beers is now tremendous and rapidly increasing. If the Amendment to the Constitution is approved, it will be many times as great.

We only want one brewery in your locality. Can we do business with *you*?

The Brewers' Journal

bring the

...DESIRED RESULTS...

Breweries IN THE UNITED STATES.

Note. Up to January 15th, 1918, all breweries listed in States in which Prohibition Laws are operative, had not *officially* been reported closed.

This DIRECTORY is an Annual Supplement to THE BREWERS' JOURNAL, New York; subscription, \$5 per annum.

CHANGES in FIRM NAMES, NEW BREWERIES, and BREWERIES CLOSED are published monthly in
The Brewers' Journal,
New York—Chicago—London.

Brewers of Lager Beer, Ale and Porter or Weiss Beer are designated by capital letters, as follows: Lager Beer, *L*; Ale and Porter, *A*; Weiss Beer, *W*.

Brewers who are also bottlers are designated by the capital letter *B*.

Brewers who have malt houses and make all or part of the malt used by them are designated by a star (*).

WORCESTER, MASS.

DELIVERING BEER

For cities and suburbs, there is no form of vehicle for brewers that equals an Electric truck equipped with

The "Ironclad=Exide" BATTERY

This battery hauls the most, for the longest time, with the least trouble and at the least expense.

It is economical to use and economical to maintain. It's good when new and it stays good.

It is the battery for big loads—rough or hilly roads—hard service.

It is reliable day-in and day-out—every day in the year.

It is the battery on which brewers can rely for continuous service at minimum cost.

Investigate!

Low- and Non-Alcoholic Beer Treated by Our Process Will Positively Keep in Kegs.

After-fermentation and consequent increase in alcohol can not occur. Thus giving insurance of the highest order against litigation or prosecution by the Government.

Such are the benefits to be derived from the use of the Gardner process of sterilization which we control.

This process was worked out under the supervision of the foremost Brewing Institute in the country and its results are certain.

Initial equipment cost is very low and the royalty basis on which any brewer can secure the use of the process is so reasonable that it puts it within reach of even the smallest brewer.

Full particulars are yours for the asking.
